ROAD MARKING EQUIPMENT ► THERMAL COMBUSTION ENGINE SELF-PROPELLED MACHINE

PROSIGN F130

« Road marking machine designed to facilitate application and optimise yields. »

ON-BOARD CAPACITY

PAINTING

130 l

BEADS

70 l

ADVANTAGES

- Compact machine for both city and road applications
- Stainless steel equipment for use with all types of road paints
- Can be applied to road centre and edges
- Good visibility of nozzles for easy application control
- Advance neutralised by a seat contact for enhanced safety
- High level of comfort thanks to its fixed chassis and ergonomic design
- Maintenance-friendly design
- Machine complies with EC directives

SOCIAL AND ENVIRONMENTAL BENEFITS

- CIRCULAR ECONOMY
Over 95% recyclable
- WASTE REDUCTION
Systematic recycling of production waste
- MADE IN FRANCE
Made in the Hauts-de-France region

AXIMUM

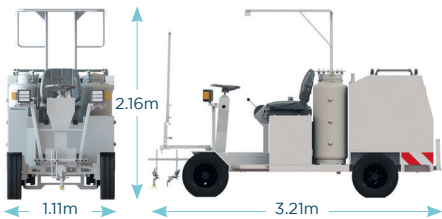

MADE IN
FRANCE

TECHNICAL CHARACTERISTICS

Airless application machine with fixed chassis.

- Empty weight: 1,040kg
- Laden weight: 1,430kg
- Speed: 0 to 18km/h
- Kubota diesel engine
- Power: 29hp at 2,800rpm

- Transmission: hydrostatic drive
- Noise level: 81.5dB
- Fuel tank capacity: 29l
- Paint pump flow rate: 15l/min
- Compressor capacity: 476l/min
- Edge marking radius: 2.55m
- Turning circle: 4.00m

EQUIPMENT/OPTIONS

	Basic version	Optional
Guide	Guide arrow / Motorised lift guide	
Modulator	Electronic modulator	
Paint tank	1 tank of 130l (≈200kg) with mixer	
Bead tank	2 tanks of 34l (≈110kg)	
Paint spray nozzles	1 for road centre 1 for edges	Manual nozzle on roller
Ball nozzles	1 for road centre 1 for edges	P2B kit
Safety	Triflash / 2 flashing lights / No-pressure brake	Specific equipment on request
Miscellaneous		Premarker / Rear platform

MAINTENANCE & SERVICING

- Our workshop carries out all maintenance operations to optimise your warranty conditions
- Maintenance contract adapted to your use of the equipment: contact us
- Express spare parts delivery service: call 03 44 44 84 25
